

Health support plan

for schools, preschools and childcare services

CONFIDENTIAL

To be completed by the PRINCIPAL, DIRECTOR or HOME-BASED CARE PROVIDER, with the FAMILY and OTHERS as indicated below, for a child or student who requires individual health and personal care support in school, preschool or child care. This plan should be based on written health care advice from a health professional. It will involve risk assessment for staff in planning for the child or student.

Name of child/student Date of birth
Family name (please print) First name (please print)

Medic Alert number (if relevant)..... Review date

First aid

Is there any individual first aid requirement, other than a basic first aid response? Yes No

If so, consider and attach as relevant:

- instructions from the child's/student's doctor
- training of willing and available personnel (including back-up)
- emergency action plan, including for excursions/camps
- ambulance access
- issues for other students (eg education sessions; supervision during an emergency)

Routine supervision for health-related safety

Does this child/student need additional supervision for health-related safety? Yes No

If so, consider and attach as relevant:

- instructions from the child's/student's doctor
- medication plan
 - Identify responsibilities for:
 - delivery, storage, supervision, record keeping
 - off-site activities
 - reminding, if necessary.
- health service provider details
 - If a care/health worker is involved, write down:
who this is, the contact staff member and
how, when and where they will provide support.
