CHILD-SAFE ENVIRONMENT

BACKGROUND

All children have the right to be safe at home, at school and in their childcare service. The provision of safe environments for children is essential to prevent injury and enable them to grow and develop. The management and staff of each service have a duty of care to provide a safe childcare environment.

Educators will consider the risks versus the benefits of including animals in the education program.

- Any hazardous or toxic cleaning products should be stored in a lockable cupboard with their relevant Material Safety Data Sheets.
- In the interests of children's health, educators are encouraged to use environmentally friendly products at the service, wherever possible.

Identifying Potential Hazards

Educators should carry out regular checks to identify and remove hazards, where possible, to manage safety risks. Steps to be taken:

- Identify the hazard that may cause illness or injury.
- Assess the risk.
- Control the risk.

- Supporting educators and their care-giving strategies.

- Acknowledging and understanding when supervision is required for high risk experiences and/or the ratio of adults to children needs to be increased.
- Assessing all activities and, when something is identified as a high-risk experience, strategies are developed to minimise the risk according to the group of children.

It is understood there is a shared legal responsibility and accountability between, and a commitment by, all educators to implement the service’s policies, procedures and practices.
