RELATIONSHIP

- Ensuring that current and up to date information on applicable legislation regarding first aid is held at the service.
- Ensuring that all educators employed at the service have and maintain appropriate qualifications in the delivery of first aid, and management of anaphylaxis and asthma.
- Ensuring that all educators have access to training and maintain their first aid qualifications.
- Ensuring that first aid equipment held at the service meets the regulations as outlined in the [SafeWork SA Approved Code of Practice for First Aid in the Workplace](#) and that any specific equipment is also suitable for use with children.
- Ensuring Material Safety Data Sheets are held at the service for all chemicals accessible at the service.

The Our Lady of Hope Greenwith Campus service recognises that a first aid response to children or adults suffering from physical, emotional, and psychological condition is a matter of priority and so we will act to ensure all possible assistance is rendered in accordance with state and national legislation. Educators will have the required qualifications and there will be trained staff always present. We will address the administration of this first aid policy by:

- Ensuring the service meets the Education and Care Services National Regulations and the standards provided in [SafeWork SA Approved Code of Practice for First Aid in The Workplace](#).
- Ensuring the service meets the Education and Care Services National Regulations and the legislation from the relevant state and territory governments.

POLICY STATEMENT

OSHC services have a responsibility to act to protect the safety and well-being of the children, employees. All educators will maintain an approved first aid qualification at the expense of the employer. All educators who access the service. Educators will be employed with an approved first aid qualification. All educators will have the required qualifications and there will be trained staff always present. We will address the administration of this first aid policy by:

BACKGROUND

- In the event that a child needs to be transported in an ambulance:
 - a) The travelling educator will continue to try to contact the emergency contacts until someone can be reached.
 - If the educator is unable to contact any of the emergency contacts for the child, or a family member or the child's emergency contacts are unable to immediately meet the child at the hospital with the child, along with the child's enrollment and medical information that is held at the service.
 - If the educator is unable to contact any of the emergency contacts for the child, or a family member or the child's destination, an educator will be required to travel in the ambulance to the ambulance's destination, record the details of the ambulance and pass this information on to the family as soon as practicable.
 - If the educator is able to contact the ambulance and provide medical information held at the service to the family, the educator will ensure that all the child at the ambulance's destination immediately, the educator will record the medical information held at the service is provided to ambulance officers, record the destination and contact details of the ambulance and pass this information on to the family as soon as practicable.
 - If the educator is able to contact the family or emergency contacts and they are able to meet the child at the ambulance's destination immediately, the educator will ensure that all medical information held at the service is provided to ambulance officers, record the details of the ambulance and pass this information on to the family as soon as practicable.

In the event that a child needs to be transported in an ambulance:

- Staff have a duty of care responsibility to provide first aid and seek emergency support if and ongoing events.
 - In the event of a serious injury or illness, the designated first aider will ensure that an educator contacts the family/guardian as soon as practicable, to notify them of the incident as indicated in a child's care plan (e.g. for diabetics).
 - In the event of a serious injury or illness, the designated first aider will provide first aid and arrange ambulance transport to the appropriate hospital, as deemed necessary or necessary, arrange ambulance transport to the child's folder (located in the office).
 - Any injuries to the head (above the shoulders) the parent is to be telephoned and a note to be put on the iPad advising parents to sign the accident/injury form, this is then filed in the child's folder (located in the office).
 - Will remain with the child until the family member arrives.
 - Office staff/designated first aider will inform the child of the family's estimated time of arrival and advise of the nature of the illness and that someone needs to collect the child. Office quiet area if possible.
 - In the event that a child is injured or becomes ill during the session, the designated first aider will determine if the child is too unwell to remain at the service. The child will be moved to a quiet area if possible.
 - In all instances, the priority of the educator will be the administration of appropriate and prompt first aid as required, to ensure the safety and wellbeing of the children, educators, and staff at the service.
 - The service holds a copy of certificates in the educator's file.
 - All staff can take on the role of designated first aider.
 - All educators on duty hold an approved first aid qualification (that includes current anaaphylaxis and asthma management training).

General

RESOURCES / REFERENCES

- Ensures that staff restock their own bum bags as needed.
- Ensure that staff administer first aid kits after each use to ensure sufficient supplies remain in the kits. The need for any additional supplies should be reported to the director.
- Ensures that the staff checks the contents of the first aid kits after each use to assist with the administration of first aid.
- If the number of people requiring first aid exceeds the ability of the first aiders or is of a serious nature requiring the attention of two first aiders, a second educator will be required whilst having contact with the children. Staff are also responsible for documenting all first aid setting (HLTAID004) qualification and will be responsible for the administration of first aid given, that it is administered appropriately, and that families are made aware of any incident.
- Ensure all staff have the "Provide an emergency first aid response in an education and care setting (HLTAID004)" qualification and will be responsible for the administration of first aid asthma training, and that documentation is kept on file.
- Ensure that all first aid qualifications of educators are current; including anaphylaxis and emergency contacts are always readily available.
